Get the Habit of
Drinking Hot Water
Before Breakfast

Says we can't look or feel right
with the system full
of poisons.

Millions of folks bathe internally
now instead of loading their system
with drugs. "What's an inside bath?"
you say. Well, it is guaranteed to
perform miracles if you could believe
these hotwater enthusiasts.

There are vast numbers of men and
women who, immediately upon arising
in the morning, drink a glass of real
hot water with a teaspoonful of lime-
stone phosphate in it. This is a very
excellent health measure. It is inter-
ested to flush the stomach, liver, kidneys,
and the thirty feet of intestines of the
previous day's waste, sour bile,
and indigestible material left over in
the body which, if not eliminated
every day, become food for the mil-
lions of bacteria which infect the
blood, causing headache,
bilious attacks, foul breath, bad
taste, colds, stomach trouble, kidney
misery, sleeplessness, impure blood
and all sorts of ailments.

People who feel good one day and
badly the next, but who simply can-
not get feeling right are urged to
obtain a quarter pound of limestone
phosphate at the drug store. This will
cost very little, but is sufficient to
make anyone a real crank on the sub-
ject of internal sanitation.

Just as soap and hot water act on
the skin, cleansing, sweetening, and
freshening, so limestone phosphate
and hot water act on the stomach,
liver, kidneys, and bowels. It is vast-
ly more important to bathe on the
inside than on the outside, because
the skin pores do not absorb impuri-
ties into the blood, while the bowel
pores do.

Obtain New Life by Taking
Howells LYMPHINE Tablets

Restores lost nerve force, creating new life.
Improvement comes to stay, guaranteed free
from Chlorine, Potash, Morphine or other
drugs. Write for booklet. Each
package contains 30 days' treatment, by mail
to: Howells & Co., 111 Church St., New
York. Sold by James O'Donnell and other
leading druggists.

GREELEY STATUE, DUST-COVERED, FOUND IN BIG BOX

NEW YORK, Oct. 24.—Horace Greeley, one of our best known editors, whose strange disappearance two years ago mystified the many thousands daily passing through Herald square, was found yesterday, and while no disrespect is intended it must be said he was a sorry spectacle. Covered with grime and dust, his clothes wrinkled and his hat gone, it was apparent that Mr. Greeley had not spent the time of his absence in church.

However, the venerable editor, who once was a candidate for President of the United States, and who wielded a pen so scorching that the objects of its scorn withered and vanished, is soon to be rehabilitated, and it is probable that he will be himself again before election day. If there was anything in this world that delighted Horace Greeley it was to be around on and before election day. In fact, he had been so numerous and active on such occasions that many a Tammany Indian breathed easier when he took up the sedentary position in which he was found yesterday.

Moved to Herald Square. The vicissitudes of the great editor since he ceased to take an active interest in his surroundings have been such as to discourage any but an editor. For many years he stood as the protecting guardian for a boot-black stand in front of the Tribune Philadelphia publisher. There were some talk of "chasing" Mr. Franklin away from there and letting Mr. Greeley loiter in his place. It was argued that Mr. Franklin at best was an outsider, and that he should go back to Philadelphia, while for Mr. Greeley it was said he should have a place under the shadow of the building housing the newspaper which he edited.

Be Greeley Quit. That all seemed reasonable, but Mr. Franklin refused to be ousted, and so Horace Greeley quit the Tribune and wandered up town, seeking a place. He finally selected Herald square, and at a point where he could survey the crowds crossing Thirty-third street to the hotel in Broadway and the great shops in Sixth avenue, and the Hudson tubes, and there he settled down, hoping it would be for good, and he had an excellent view of the Herald building on election night, and if there was anything the old editor loved it was election returns.

But along came the subway building a couple of years ago, working day and night. Horace Greeley was in the way, and one morning he was missing, and a wayward excavation was where he had been. That subway is almost finished now and workmen are restoring the streets and the open plots of Herald square. Complaints upon complaints like affair in the southern end of the square, and almost on the side walk in Thirty-second street, the workmen tore away one side and there they found the long lost Horace Greeley. That the editor was not proud of his condition was shown when he concealed his head in the dark recess of his shelter, as much as to say:

"Please don't take my picture now. I'm all mused up and feel terrible. How's the election going? Do you suppose I'll get my old place back in time to read the Herald bulletin election night. I'd be grateful if it could be arranged."

Mr. Greeley certainly looked as though he would be grateful for small, or large, favors. He needs them.

CHAUFFEURS JOIN IN SAFETY FIRST DRIVE

The Professional Chauffeurs' Association, numbering hundreds of men who drive cars about the city for a living, today announced its intention of giving all possible cooperation in the campaign of the Safety First Association to make Washington's streets safe, and will hold a parade Friday evening in the club room, 1107 Fourteenth street northwest. Lieutenant Headley, head of the police traffic squad, Sergeant Shelby and Sergeant Stanley will speak.

"It is a good sign when chauffeurs meet for such a cause," said President Milton D. Smith today. "We trust our efforts will meet with good results and will be appreciated by the public. When chauffeurs show an interest in safety first work, surely some good will result."

GOLD TO BE MONEY STANDARD IN MEXICO

NEW YORK, Oct. 24.—Gold will be substituted for silver as the currency basis in Mexico soon, according to a statement by Dr. Alfredo Catrigan, head of the Mexican government's New York financial bureau. The minting of silver has already been abandoned, and gold coins are being struck off.

A new Mexican gold coin, valued at 20 pesos, or about \$10 in American money, is being made.

MAY IRWIN'S MOTHER DIES.

NEW YORK, Oct. 24.—Mrs. James A. Campbell, better known to her friends as Mrs. Irwin, and mother of May Irwin, the actress, died at her home in Hotel Edgewood. She was eighty-six years old. Mrs. Irwin was at Columbus, Ohio, when informed of the death.

Offerings Next Week at the Capital Playhouses

NATIONAL.

The admirers of Maude Adams will have their first opportunity in a long time to see the actress in a new role on Monday night at the National Theater, when she is to come forward in James M. Barrie's latest work, "A Kiss for Cinderella." The heroine is a little dark household drudge with so much an imagination she is called Cinderella. She dreams of a ball, this little girl who has never seen anything more gorgeous than the outside of a gin palace and who has never heard any music except that from the street hurdy-gurdy. The ball of her imagination is reproduced, the comic court peopled by the characters of the previous scenes. The scene is full of humor. Miss Adams will, of course, be the Cinderella.

OLIVER MOROSCO'S New York comedy hit "The Brat," by Maude Fulton will be the attraction for the Belasco Theater next week for an engagement of one week. "The Brat" was given its first Eastern premiere at the Belasco Theater in this city early last season, and at that time scored an emphatic hit with local theatergoers.

Maude Fulton, who created and interpreted the title role in her own play, that of a dancer, was a member of the dancing team of Rock and Fulton for eight years.

B. F. KEITH'S Sam Bernard, the dialect comedy star, will lead the van of vaudeville at B. F. Keith's Theater next week.

The extra added attraction will be Lucille Cavanaugh of the "Follies." She will have the assistance of Frank Hurst and Ted Doner in the presentation of "A Kaleidoscope of Song, Color and Dance." Nonette, the violinist who sings, will be another feature, in her new repertoire. McMahon, Diamond and Chaplin will introduce "A Rag Doll." The Dumas will present an equestrian number. Earle Cavanaugh, supported by Ruth Tompkins, and a half dozen dancers, will appear in the musical comedy "Mr. Inquisitive." Olga Boris, a Russian pianist; the Three Johns, European equilibrist; the pipe organ recitals and the Hearst-

CITIZENS' SOCIETY TO CUT GOOD COST IS INCORPORATED

The first incorporated community association in the District was formed today in the office of Corporation Counsel Conrad H. Syme, in the District building, when articles of incorporation for the Wilson Normal School Community Association were signed by the president, E. C. Snyder, and the board of directors.

The association was organized at a meeting last night in the Wilson Normal School. It was decided to celebrate Liberty Loan Day by incorporating the association.

Features of the plan, which is intended to assist in decreasing the cost of living are the community bank and the purchasing club. The bank will be the backbone of the system. Members of the association will utilize this bank for deposits.

Bank to Handle Funds. Through the bank, enterprises fostered by the association will be financed. Duly bonded executives will be in charge of the banking and buying branches of the organization.

The aim of the purchasing club, according to E. C. Snyder, president of the organization, will not be to eliminate the corner grocer from the community, but to secure wholesale rates in buying milk, potatoes, and other foodstuffs which can be purchased in large lots with ease. Plans for the buying of a carload of potatoes have already been formulated.

With about 4,000 families in the community, about 1,500 are expected to join the purchasing club. When it is possible to obtain milk at 11 cents instead of 14, and potatoes at two-thirds their market cost, it is pointed out, members of the community will find it to the club.

The association is modeled on similar organizations in Europe. The aim will be to make the schoolhouse the capital of the community.

Announcement was made that much of the money which will be deposited in the bank will be put into Liberty and farm loan securities.

The board of directors is Mrs. Ida M. Kebler, secretary; Mrs. Sadie R. Markward, Anne M. Goding, Dr. Henry E. Jackson, E. C. Snyder, R. W. Silvestre, Wm. Stoddard, M. J. McDermott, E. E. Muth and L. F. Kebler.

ENEMY TRADING ACT GIVES U. S. BILLION

One billion dollars is unofficially estimated to represent the German-owned money or other property subject to confiscation by this Government under the trading with the enemy act. All available officials are urged to invest in the next Liberty loan.

Until A. Mitchell Palmer, as custodian of enemy property, has returned returns from corporations and individuals, it will be impossible to determine the total value of the assets he is required to take over.

FIRST LIBERTY TRUCKS READY BY JANUARY 1

Deliveries of the first 10,000 Liberty trucks, now under construction, will be made January 1, according to an announcement by the quartermaster general's office.

Contracts for axles, motors, transmission and steering gears have been distributed among scores of factories. The completed parts will be shipped to central points where the completed cars will be assembled. The last deliveries of the first order of 10,000 trucks will be made by July 1, next.

PATHÉ NEWS PICTORIAL AND WAR SECTION ARE THE CONCLUDING NUMBERS.

Of the flavor and atmosphere of Hawaii is "The Daughter of the Sun," a spectacular drama playing at Polli Theater next week, with matinees on Tuesday, Thursday, and Saturday. Elaborate settings of tropical nature afford an excellent background, and an additional charm is lent by the plaintive music of a native band of Hawaiian musicians. These players also appear in native dances.

This new play is from the pen of Lorin J. Howard and Ralph A. Kettering, and is one of mystery, Japanese plot against the United States, the tapping of the wireless, etc.

"A Trip to Elphanto" is the title of the two-act revue in fifteen scenes which Dave Marlon and his own company will offer at the Gayety Theater next week. Mr. Marlon, himself, will head the cast in his familiar role of "Snuffy," but in new surroundings, and it is said that in the current production his humor is seen at its best. Men of importance are Charles Raymond, a straight man, who is making his reappearance in burlesque after a tour of the vaudeville theaters; Horan and Burke, a clever team of blackface comedians, and Henry Plunkett. Agnes Behler heads the female contingent, assisted by Miss de Verdi, Nellie Watson, and Mlle. Bertolotti.

LYCEUM. The Lyceum Theater opened Sunday evening with two good shows. Ed. E. Collins' Big Review headed by the famous Watson Deaf Trust comedian, made a pronounced hit, the audience recognized the comedian upon his entrance, and gave him a round of applause. The show is clean, wholesome, and the scenery was new and up-to-date. The costumes are pretty and the music tuneful. This in conjunction with Billie Maxwell and his auto girls, an aggregation of good-looking women wearing tasty costumes made up a good evening's entertainment.

Hen Chaser Loses Eye When Biddy Is Hurled Against Wind Shield

DREW, Miss., Oct. 24.—The favorite sport of James Watson, since he purchased his big touring car recently, has been chasing hens. No—they were of the feathered variety. Today he is repenting of having gone too far with his game, for he has lost one eye.

One of these hens that chanced to cross the street in front of his car was caught in a wheel and hurled into the windshield. Some of the broken glass penetrated Watson's eye. The eyeball has been removed.

G. P. O. WORKERS FORM "MATINEE COMPANY"

The "Matinee Company," composed of more than 100 night workers at the Government Printing Office, today is a unit of the Home Defense League. The new company will be officially known as Company H, but because it plans to hold afternoon drills and target practice it has already been given a nickname, the "Matinee Company."

A rifle range is being constructed in the basement of the Printing Office where rifle practice will be held in target practice. There are 1,000 male attaches of the Government Printing Office, and more companies will be organized.

Col. M. A. Winter, commander of the Home Rifles, addressed the midnight organization meeting last night. Lieut. Col. E. P. Hazelton, Maj. O. A. Phelps, and Maj. D. W. Thayer of the War Department's staff, also spoke. Hubert Newson, president, and E. A. Lange sang patriotic songs.

Not a Particle of Dandruff or a Falling Hair

Save your hair! Double its beauty in just a few moments.

"Danderine" makes your hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your hair will be growing and what will please you most, after a few weeks' use, when you see new hair fine and downy at the temples and really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, life-giving and life-producing properties cause the hair to grow long, strong and beautiful.

LOEW'S COLUMBIA.

At Loew's Columbia Sunday and continuing until Thursday, Marguerite Clark will be seen in the second of the series of Mary Roberts Rinehart's "sub-deb" stories. The first was "Bab's Day," and now comes "Bab's Burglar." It is the story of how a schoolgirl spends her thousand dollars, a year's allowance, in two weeks. A Hearst-Pathé News and other special features will be shown. Beginning Thursday and for the last half of the week Ann Pennington will be seen in "The Antics of Ann."

STRAUD. "The Whip," heralded as the greatest motion picture in the world, is coming to Moore's Strand Theater for the week beginning Sunday. Preparations have been made by the management, in connection with the showing of the famous picture, to produce on the stage the realistic, thrilling horse race which is the climax of the story. Tom Moore and George Schneider, general manager of the Moore Enterprises, have made several trips to New York recently, to complete arrangements for securing the scenery, horses, and treadmill used in the stage productions of the play. Specially arranged music will be rendered by the Strand Symphony Orchestra.

GARDEN. The list of attractions at Moore's Garden theater for next week is headed by Dorothy Dalton in "Ten o' Diamonds." The picture, which will be shown Sunday, Monday and Tuesday, shows the star as a dance hall girl, yet with many attributes of good womanhood. Her regeneration is brought about by a wealthy young man, whose plan to arrange her marriage with an enemy is changed when he realizes the many good traits she possesses when she is transplanted from the cabaret to the society circle. George Gebel in "Lost in Transit" will be featured Wednesday, Thursday and Friday. Saturday the program will be changed to "The Girl Angel," in which Anita King is seen as the star.

CENTRAL COLISEUM. The Central Coliseum has engaged a large corps of artists to decorate the large dancing auditorium for the masked carnival on Halloween night. The floor is being repolished.

BOY'S LIFE WORTH BUT SIX CENTS, JURY FINDS

PHILADELPHIA, Oct. 24.—According to the verdict of a jury in Camden, the life of an eight-year-old boy is valued at 6 cents. Joseph Wojcik, 8, of Camden, brought suit in the circuit court before Judge Lloyd against the Evans & Vincent Company to recover damages for the loss of his son, run down and killed by a motor truck belonging to the company.

It was explained to the jury that a boy's earning capacity would not begin until he reached the age of sixteen, and that previous to that time the child was an expense to the parents. The case will be appealed.

Physicians Explain Why They Prescribe Nuxated Iron So Widely

For Creating Red Blood, Building Up the Nerves, Strengthening the Muscles and Correcting Digestive Disorders—Often Increases the Strength of Delicate, Nervous, Run-Down Folks 100 Per Cent in Two Weeks' Time.

CHICAGO'S FORMER HEALTH COMMISSIONER SAYS IT SHOULD BE USED IN EVERY HOSPITAL AND PRESCRIBED BY EVERY PHYSICIAN

Opinions of Dr. N. H. Hornstine, for 10 years with the Department of Public Health and Charities of Philadelphia; Dr. A. J. Newman, late Police Surgeon of the City of Chicago; Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York, and Other Physicians Who Have Tested Nuxated Iron in Their Own Private Practice.

NOW BEING USED BY OVER THREE MILLION PEOPLE ANNUALLY

It is conservatively estimated that over three million people annually in this country are taking Nuxated Iron. Such astonishing results have been realized from its use both by patients and laymen that a number of physicians in various parts of the country have been asked to explain why they prescribe it so widely, and why it produces so much better results than any other iron preparation. The answers are as follows:

Dr. N. H. Hornstine, for ten years with the Department of Public Health and Charities of Philadelphia, said: "During my connection with the Department of Public Health and Charities of Philadelphia, I have been asked to explain why I prescribe Nuxated Iron so widely, and why it produces so much better results than any other iron preparation. The answers are as follows:

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, said: "I have been asked to explain why I prescribe Nuxated Iron so widely, and why it produces so much better results than any other iron preparation. The answers are as follows:

Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York, said: "I have been asked to explain why I prescribe Nuxated Iron so widely, and why it produces so much better results than any other iron preparation. The answers are as follows:

THIRD ITALIAN AERO REACHES NEW YORK

NEW YORK, Oct. 24.—The third Italian airplane, a Sias, which arrived yesterday after covering the 320 miles between Nepport News, Va., and this city, is now on its way to the city.

The Sias lost its way along the route and more time was consumed in making the trip. The Caproni and the Pomilio arrived Monday.

ACADEMY PUPILS BUY BOND. The pupils of St. Cecilia's Academy, Sixth and East Capitol streets, have purchased a Liberty bond in the name of the school. This is the golden jubilee of the academy and the pupils of the Holy Cross, who are in charge of the institution, are deeply appreciative of this manifestation of loyalty on the part of the pupils.

Chicago, Milwaukee & St. Paul Ry. Send for electrification literature and full information—address GEO. J. LINCOLN, General Agent, 818 Chestnut St., Philadelphia, Pa.

Mighty indeed—for not alone has the "St. Paul Road" by its electrification across the Continental Divide (now being extended through the Cascade Range) leveled the mountains as a barrier to transportation—but has also released great stores of earth's treasured energy for other much needed purposes.

By utilizing the hitherto wasted power of mountain waterfalls to move the heavy steel trains across the mountains of the Northwest, there is conserved annually over a quarter of a million tons of coal, over a half million barrels of oil, and the thousands of cars necessary to transport this fuel are freed to serve other pressing needs of transportation.

In this world crisis, when every resource of the nation is taxed to its utmost, this "St. Paul" achievement takes on extreme importance.

When next you journey to the cities of the Pacific Northwest travel the smooth, smokeless, cinderless electric way—via the
